How to Use these Boards to Improve Unclear or Dysarthric Speech

1. Point to the topic of the conversation on the Topic Board.
2. Point to the first letter of each word as you say it on the Letter Board.
3. The conversation partner should repeat back each word as they understand it for verification.
4. If you are not understood correctly, spell out more of the word with the Letter Board.

Tip: Put the boards back-to-back or print double-sided and laminate or place in a page protector for better longevity.

For more information on the benefits of using letter and topics boards with dysarthria, please visit <http://tactustherapy.com/app/alphatopics-aac/>

[AlphaTopics](http://tactustherapy.com/app/alphatopics-aac/) is an affordable AAC app from [Tactus Therapy Solutions](http://tactustherapy.com) that allows you to hear each letter, customize the topics, and carry these boards around on your iPhone or iPad. [Download on the App Store](http://tactustherapy.com/app/alphatopics-aac/) today!
